

Sen. Mark Hutchison says one thing but votes the other way.

He says
this –

But votes like this –

I oppose ObamaCare.

AB138 – A bill that allowed businesses to receive a tax abatement if they donated up to \$1 million to a Nevada college or university. However, they could only get this tax credit if they fully complied with the provisions in ObamaCare. **Sen. Hutchison voted “Yea.”**

Either he didn't read it before voting or he agreed with pressuring Nevada businesses to implement the same ObamaCare program he sued to stop.

I oppose ObamaCare.

AB425 – Sets up the “Facilitators” and “Navigators” to encourage people to sign up for ObamaCare, the very program Sen. Hutchison sued to stop.

Sen. Hutchison voted “Yea.”

I oppose ObamaCare.

AB507 – Is the budget bill that funded the expansion of Medicaid as part of implementing ObamaCare, the program Sen. Hutchison sued to stop. **Sen. Hutchison voted “Yea.”**

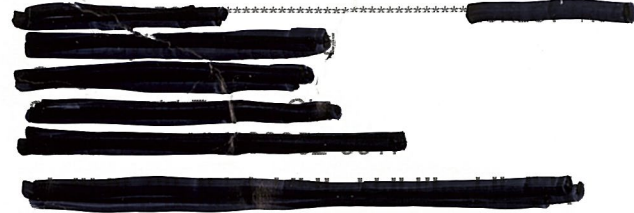

Supporting AB507 particularly egregious since the U.S. Supreme Court specifically ruled that individual states could not be required to expand their Medicaid coverage as part of ObamaCare. So this expansion of our welfare system was not only unnecessary, it's unsustainable and will inevitably come back to haunt Nevadans in years to come.

We don't need dishonest politicians who say one thing then vote the opposite. Reject Sen. Mark Hutchison.
